MISSION

Our Bittersweet Golf Club program will give junior golfers the foundation to make golf a lifetime activity that they will enjoy.

Our summer golf program will provide your child with the principles, tools and strategies to allow them to reach their full potential in the game of golf. Our junior golf program is taught outside on our driving range and short-game practice facilities by our long-time affiliated pro and our associates. During your child's time in our program, they will be learning proper golf course etiquette, golf swing fundamentals, and putting and chipping techniques.

NEW THIS YEAR!

Introducing our new Advanced Junior Golf Clinic—four action-packed, two-hour sessions designed to prepare young players for their school golf team with confidence and skill. The program alternates between focused training days on our state-of-the-art practice facility, where students will sharpen fundamentals and build a solid technical foundation, and on-course practice, giving students hands-on experience with course management, rules, scoring, and proper golf etiquette. Perfect for aspiring team members, this clinic provides the knowledge, practice, and confidence needed to take their game to the next level. **This program will be capped at eight (8) students per session to ensure intensive, personalized attention from instructors.**

To encourage continuing engagement, all participants will receive a \$30 range card upon completion of session.
